

School Improvement Plan

Goal #2

This Plan also meets legislative requirements for the Elementary Reading Achievement Plan, Professional Development Plan, and Trustlands Plan.

School Name:

East Meadows

School Year: 2016-17

Goal #2: Provide each classroom with the technological tools and training that will help in curriculum development and instruction.

Nebo Goal (Board Goal) Connection: Technology Strategic Initiative

Action Plan(s):

1. Each classroom will have a projector, computer, document camera, audio enhancement system, interactive board, iPad and Chrome Books to enhance instruction.
2. New or additional technology will be added to classrooms as funding allows.
3. Money will be allocated to replace and repair equipment and to provide replacement parts as needed.
4. Outdated computers will be replaced on a rotating basis.
5. Students will be involved in curriculum and instruction that is enhanced by technology.
6. A curriculum technology support specialist will be hired to help with hardware and software issues in classrooms. The Specialist will also help with the implementation of technology in our classrooms and the alignment of curriculum with technology tools, and will help support the school website.

Measurements of Success:

- Teachers will be expected to use technology on a daily basis. This will be monitored and assessed by the principal. Teachers will share ideas of using technology with the curriculum during weekly collaboration meetings.

Supporting Professional Development Activities (if applicable):

1. Teachers will be trained on the appropriate use of the technology.
2. Teachers will share ideas of how they use technology.
3. Teachers will be trained by District Staff on use of technology in their classrooms.
4. Teachers will receive technology training to help them better use support materials that are available from the district and state, as well as materials available on the internet.
