

Dear Parents and Guardians,

East Meadows Elementary School will be implementing a Positive Behavioral Interventions and Support System this year in order to improve school-wide behavior and safety. As a school there are academic and behavioral expectations for each student. These expectations will be reinforced and corrected in a positive manner by using a tiered intervention system. Each Tier 2 & Tier 3 Intervention given will be documented and include communication with the parent or guardian. This may be done by phone call, email, or face to face visit. Student interventions for minor offenses will start over each week, and interventions for major offenses reset at the beginning of each school year. Students that go at least 7 of the 10 weeks each term without a minor offense and no more than one major offense will be able to participate in a reward activity for that term.
